English
Tamil

OBJECTIVE

To secure a position as a MERN Stack Developer where I can apply my skills in MongoDB, Express.js, React, and Node.js to build efficient and scalable web applications, while continuously enhancing my technical expertise."

EXPERIENCE

- Fresher

EDUCATION

2018-2019	10th Nest Matriculation Higher secondary school 79%
2020-2021	+2 Nest Matriculation Higher secondary school 81%
2021-2024	B.Sc.Computer Science St.Joseph's College (Autonomous) 70%

PROJECTS

Simple - Authentication

Developed a secure user authentication system using Express.js, MongoDB, HTML, CSS, and JavaScript. Implemented user registration, login, and session management with encrypted passwords using bcrypt. Utilized JWT for token-based authentication, ensuring secure API access. Designed responsive front-end with HTML and CSS, enabling smooth user interaction. Integrated MongoDB for efficient data storage and retrieval.

Simple - Contact Form

Built a contact form using Node.js, HTML, and CSS to capture and submit user inquiries. The form collects user details like name, email, and message, and sends the data to a Node.js server. Implemented server-side form validation and error handling. Styled the front-end using responsive design principles to ensure a seamless user experience across devices.
